

EZ-Blox™ Anti-Skinning Agent

Markets and Uses:

Anti-skinning agent in paints.
Prevents skinning in alkyd-based systems.

Storage:

Store in a cool, dry, well-ventilated area. Keep away from strong acids and oxidizers. Protect containers from physical damage. Keep upright and tightly closed. Please refer to the safety data sheet for detailed safety and classification information.

PHYSICAL PROPERTIES

Formula	CH ₃ C(NOH)C ₃ H ₇
CAS Number	623-40-5
EC Number	484-470-6
Molecular Weight	101.15
Chemical Name	2-Pentanone oxime
Density	0.903 g/ml @ 20°C
Boiling Point	172°C @ 101.7 kPa
Melting Point	-45°C @ 101.7 kPa
Flash Point	69°C @ 102.1 kPa
pH	7.4
Solubility in Water	34.7 g/L
Vapor Pressure	1.6 mm Hg @ 20°C

SPECIFICATIONS

Assay	99.0% min
Methyl isobutyl Ketoxime	0.50% max
Other*	0.30% max
Water	0.20% max
Color, APHA(Pt-Co)	10 max
Appearance	Clear liquid

*Alcohols, Ketones and Oximes impurities
